Fantastic Film Club

The best club for thirteen- to sixteen-year-olds at our school is the Film Club. It's got fifty-one members and we meet every Saturday. We usually watch films together and talk about them afterwards. What do we watch? Comedies, action films, historical films, war films and many other types of films. I like fantasies and *The Lord of the Rings* films are my favourites.

Every year the members of the club do a big project. This year we are doing something special: we're making a musical about a school in New York.

Today is Saturday 16th January and we're all at the club. We're working hard because we want to start filming in two months. Rachel and Tom are over there. Rachel is writing the music for the musical. Her job is difficult because there are a lot of songs in the musical. Tom is next to her. He's writing the story for the film and he and Rachel work together. They're important people in this project.

What are the other people doing? Well, Anna is doing the special effects. In the story, there's a storm in New York and Anna is making storm noises on her computer. Are the actors acting? No, they aren't. They're listening to Tanya. She's singing one of Rachel's songs and Frank is playing the piano. They're amazing. This is going to be a great musical!

HOMENEWSBLOGFEATURES

International Student Film Festival!

Today is the beginning of the International Student Film Festival in Rome and it's an exciting day for the young people here. There are students from the United States, Europe and Japan. One of them is Anke Muller, from Germany. Anke is a seventeen-year-old student and she's staying with friends in Italy this summer. She's taking part in the festival for the first time.

'Animated films are my favourite and I love the Wallace and Gromit films,' she says. 'Some of the characters in these films are really weird, but they're all brilliant, and Gromit, the dog, is very funny.'

Anke loves watching films and she also makes animated films about funny people. 'I love watching people in the street, in the park, at school,' she says. 'They often do weird things.'

Anke makes her films at home. 'My film studio is my bedroom,' she says. 'I sit there every day and I make the scenes and characters.' It isn't always easy for Anke. 'I don't have a lot of free time because I often have a lot of homework. I love making films but I don't always like doing my homework!'

This festival is great for Anke because she's with new friends. They can watch films and talk to film directors. Anke's favourite film at the festival is a science fiction film called *The Robot Returns*. 'It's very scary,' says Anke, 'but the special effects are amazing.'

2 Read the blog again. Answer the questions.
